

NOTICE

July 1, 2017

Goods & Service Tax regulation shall be implemented effective July 1, 2017.

The regulation mandates service provider to issue invoice with name, address (with proper state) and GSTIN of the recipient of CFS service. This will facilitate to determine the tax liability and allow the recipient to avail CENVAT Credit of the amount of GST paid by him to CFS.

We request all the user of the facility to provide the correct information in whose favour the invoice is to be generated in prescribed form on their letter head. In case no information is received, we shall presume the recipient as 'unregistered dealer' under GST laws and raise invoice accordingly and so input credit will not pass through.
